

Exciting changes are here!

First Security Bank of Helena is excited for you to try the new features and services in online banking. This system upgrade brings the following innovative banking solutions to you.

External Funds Transfer allows you to transfer funds online between financial institutions without visiting a branch or even writing a check. You can set up automatically recurring transfers between financial institutions and choose the transfer date, whether it is the next business day or next month – the choice is yours.

Person to Person (P2P) Payments or Popmoney gives you the convenience and ease of paying, requesting or receiving money from other people without needing their personal account information. Popmoney is secure and makes exchanging money as easy as sending a text or email.

Direct Connect allows you to connect transactions and account balances from Quicken or QuickBooks directly to your electronic check register. Account information can be uploaded to software where reporting and graphing features can be utilized.

Secure Support provides a secure email inbox within Online Banking that will let you send and receive secure emails to a bank Customer Service Representative. You can be sure that your account information will be handled via a secure email box for your safety and protection.

If you haven't already logged into our new online banking, check it out. We are confident that you will enjoy the convenience, flexibility, reliability and control of online banking.
